Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS - I want to connect with professionals in my field. - I don't know whom I should approach. - Writing networking messages is difficult. - I wish networking were easier.		THINKS - Will professionals accept my connection request? - Am I contacting the right people? - My profile may not be attractive enough. - Networking is important for my career growth.
	PERSONA NAME Job Seeker	
DOES - Searches for professionals on networking platforms. - Sends connection requests. - Attends webinars and career events. - Updates resume and professional profile.		FEELS - Confused about where to start. - Nervous while reaching out to professionals. - Frustrated when requests are ignored. - Hopeful about finding career opportunities through networking.
